Remind each presenter of the time limits that apply, and describe the method you will use to alert them of time limits during the actual presentation.
2. At the start of the session, introduce yourself to the audience, announce the session/title, and offer a brief overview indicating how the papers are related.
3. Next, introduce the speakers with brief comments regarding the affiliation and/or background of each presenter.
4. Prior to each presentation, announce the paper's title, authors' names and their affiliations. Identify the individual who will be speaking if it is someone other than the first author.
5. During the presentations enforce time limits strictly so that no author (or audience member) monopolizes someone else's time. And each speaker will have about 20 minutes for oral presentation.
6. Once presentations are complete (paper presentations and discussant's presentation) the remainder of the time can be used for informal discussion with the audience and session participants. It is your job to field questions from the audience.
7. Try to conduct the session as informally as possible (e.g., use first names when addressing participants and members of the audience) to encourage as much audience participation as possible.
- 8. There will be a group photo after your session end. Please inform all speakers in advance.**

### Visa

Foreign attendees will need to apply for visa by themselves usually, so the committee recommends applying for visas as early as possible. Please check with your local consulate or embassy to find out the earliest possible application date. Meanwhile, we strongly advise the foreign attendees to apply for the Tourist Visa instead of Business Visa which is more accessible.

### Currency

The official currency is the SEK (Swedish Krona). Major credit cards are accepted (VISA, Master) and foreign currency can be converted in airport, hotels.

You are advised to exchange some SEK for your bus/taxi fares before your departure. The exchange rate between U.S. dollar and SEK is approximately at 1: 10.15, Euro and SEK is approximately at 1: 10.99. Please check for further updates.

### Electricity

The standard voltage in Stockholm is 230 V. The standard frequency is 50 Hz. This is similar to the electricity

standard in other European countries including the UK, but different to the USA and Japan, for example, that use 120 V and 100 V respectively. So electrical appliances from the UK will function in Stockholm with the use of an adapter but a transformer would be necessary for appliances from countries such as Japan and the USA.

## Local Time

## Safety Tips for Stockholm Travel

- ✓ **General Safety:** Stockholm is very safe, but stay alert in crowded areas (e.g., public transport, tourist spots) to avoid pickpockets.
- ✓ **Transport:** Use official taxis (like Taxi Stockholm) or public transport (SL app for tickets). Avoid unlicensed cabs.
- ✓ **Night Safety:** Well-lit areas are safe, but be cautious when walking alone late at night.
- ✓ **Emergency Numbers:** Dial **112** for police, ambulance, or fire.
- ✓ **Scams:** Beware of street scams (e.g., fake petitions, distraction theft).
- ✓ Please keep your valuables secure during your stay. For added safety, we recommend using the **in-room safe** provided by the hotel.

### Airport Safety Reminder:

1. Keep your belongings secure at all times – Never leave luggage unattended.

2. Watch your bags closely – Especially in crowded areas like check-in, security, and boarding gates.
3. Use a money belt or hidden pouch – Keep cash, cards, and passports safely concealed.
